## Kasson Chamber of Commerce Event Announcement:

The Kasson Chamber of Commerce will once again be planning an **Around & About Shop Local Friday** event scheduled for **Friday, June 9th.**

The event is designed to promote our city businesses emphasizing the importance of shopping locally. A number of main street events will be planned starting at **10:00 a.m.** that day and concluding with afternoon and evening entertainment at the **Kasson Legion.**

All Chamber businesses are invited to participate in any form applicable (sidewalk sales, store specials, customer drawings and/or giveaways, etc.). We had a successful initial **Around & About** event last year and are hoping to make this one even bigger.

Mark your calendars for **06/09/23** and feel free to contact our **Kasson Chamber of Commerce** with any questions. We hope to see you **Around & About!**

JUNE 9TH, 2023

**ASK THE MOTOR MEDICS®**  
From the Hosts of the Under The Hood radio show.  
**By Shannon Nordstrom and Russ Evans**

**Dear Motor Medics,**  
I have a 2004 GMC Yukon and I'm having a 4x4 problem. The system will work one time then not the next. When I take it to the shop it seems to be the time that it is working correctly. The problem it has is when I switch to 4x4 high the light just blinks then it stays in the 2wd position. Sometimes when I switch to low 4x4 then back to high it will work just fine until I put it back in the 2wd position.  
**Jack in Charleston West Virginia**

**Dear Jack,**  
Problems with systems that seem to always work when you have it in the shop are as big a pain for the mechanics as it is for you as the driver. The systems have computers that can often give codes which can help with the diagnostics, but they don't always indicate the exact cause and without the system actually failed at the moment it's being inspected makes it hard to diagnose and confirm repairs. The most often found issue we see when a 4x4 system in a GM truck of your model year fails like this is a failed shift motor or shift module. Both parts can be expensive so if you can get it to happen while at a shop so they can give a 100% accurate diagnosis it will go a long way to helping you save money and get it repaired right on the first visit.  
**Take care, the Motor Medics**

**Dear Motor Medics,**  
I'm a longtime Under the Hood listener and I want to thank you for the great advice you guys give. I have a problem with my headlights. I drive a 2007 Chevy Impala and when I'm driving my headlights sometimes just shut off by themselves. If I pull the headlight switch out, they stay off but switching to the high beams does work but only for about two minutes then they start to blink and fail too. I tried a switch that I installed myself and it did not help.  
**Steven in Lindsay Oklahoma**

**Dear Steven,**  
We have experienced headlight failure ourselves and it can be a scary thing. At least you have high beams so you can get off the road safely. This is actually becoming a common issue on this body style car. The headlight switches do fail quite often and your replacing of the switch may have been needed as well as the further repairs needed now. The switch connector needs to be checked during the installation of the switch. The pins in the connector tend to become burnt and fail due to high resistance and heat build-up. Make sure the pins are clean and in good shape and are not loose and replace any that are questionable. The pins can be found at a GM dealership parts department and the tool to install them at most auto parts stores. Also check your headlight socket connections.

**Auctioneers Comment:**

After 70 years the family has decided to offer it to the public. The family has continually invested in tile throughout the crop land for improved crop productivity. Great piece of land to expand your farming operation.

Terms of the Sale: \$25,000 down payment the day of the sale. Parcels 1 and 2 are separate tax properties but are being sold as one. The balance is due and payable in full within 45 days of the auction. All earnest money is nonrefundable if buyer's fail to close and pay seller in full. Purchasing and closing procedures will be handled by attorney's office Smith Toffelson Rahrick & Cass of Owatonna, MN.

Farm is rented for crop year 2023. Sellers have paid the first half of the property taxes and will retain the first half of the rented income. Buyer is responsible for the second half of the property taxes and is entitled to the second half of the rental income.

All real estate is selling in as is condition from the seller. Any statement made the day of the auction takes precedence over all printed material. Seller has the right to accept or reject any or all bids. All information provided was obtained from sources deemed reliable, but neither the auction company or the seller guarantees its accuracy.

## THE FUNNIEST JOKES IN THE WORLD (THIS WEEK)

"Once, my father came home and found me in front of a roaring fire. That made my father very mad, as we didn't have a fireplace."

"Your mother has been with us for 20 years," said John. "Isn't it time she got a place of her own?" "My mother?" replied Helen. "I thought she was your mother."

In Denver, the members of a Sunday-school class were asked to set down their favorite biblical truths. One youngster laboriously printed: "Do one to others as others do one to you."

According to unofficial sources, a new simplified income-tax form contains only four lines:

1. What was your income for the year?
2. What were your expenses?
3. How much have you left?
4. Send it in.

One of the oddities of Wall Street is that it is the dealer and not the customer who is called broker.

Two co-workers ran into each other at the door of their psychiatrist's office. "Hello, there," said one. "Are you coming or going?" "If I knew that," said the other, "I wouldn't be here."

At a party, a young wife admonished her husband, "That's the fourth time you've gone back for ice cream and cake. Doesn't it embarrass you?" "Why should it?" answered her spouse. "I keep telling them it's for you."

The past, present, and future walk into a bar. It was tense.

Comic Sans, Helvetica, and Times New Roman walk into a bar. "Get out!" shouts the barman. "We don't serve your type here!"

A bartender says, "We don't serve time travelers in here."

A time traveler walks into a bar.

On an airplane flight there was a

lively youngster who nearly drove everyone crazy. He was running up and down the aisle when the flight attendant started serving coffee. He ran smack into her, knocking a cup of coffee out of her hand and onto the floor.

As he stood by watching her clean up the mess, she glanced up at the boy and said, "Look, why don't you go and play outside?"

"Nothing looks good on me anymore," wailed a customer modeling an outfit in front of the department store's mirror. "Nonsense, ma'am," soothed the salesclerk. "That dress says it all." "That's the problem," the woman replied. "I need a dress that keeps its mouth shut."

"We used to play spin the bottle when I was a kid. A girl would spin the bottle, and if the bottle pointed to you when it stopped, the girl could either kiss you or give you a nickel. By the time I was 14, I owned my own house."

## SHOWER THOUGHTS

Those odd ponderings at unusual times.

Trying to get rich by winning the lottery is like attempting death by flying a commercial airline.

A new series of Groundhog Day should be announced, and then the original should be re-released.

I wonder if my dog usually follows me into the bathroom when I need to go potty, because I always follow him outside when he does, and he assumes that's how it works.

The word 'Fat' looks like the first letter of the word 'Eat' has been chewed off.

Your stomach believes the entire potato has been mashed.

Vehicles have automated safety throughout most of human history, and they could even drive you home while you were sleeping or drunk. We were able to remove the horse after that.

I should find out where my barber has his hair cut, then go there and work my way up the chain until I locate THE GREATEST BARBER IN THE WORLD, or maybe simply a bald guy.

You could update Google Maps Street View every week if garbage trucks were equipped with cameras.

Because gorillas don't know how to bodybuild, we've probably never seen one at full potential.

I'm curious as to what my dog's name is.

Given that both Batman and Iron Man's only actual superpowers are extremely wealthy and extremely intelligent, Bill Gates and Elon Musk have proven to be disappointments.

# WEIRD LAWS IN MINNESOTA

### The Land of 10,000 Lakes has declared mosquitoes a public nuisance

Minnesota has a record 11,842 lakes spread across the state. Due to the numerous 'still' water bodies, mosquitoes have become a major problem for people in the state. So much so that the state legislature declared in an edict that "...all areas wherein mosquitoes incubate or hatch are declared to be public nuisances, as harmful or inimical to the health, welfare and prosperity of the inhabitants and may be abated as hereinafter provided. Therefore mosquito abatement may be undertaken, as provided in sections 18.041 to 18.161, in any or all areas of the state by any governmental unit."

### Massage therapists must close at 11:00 p.m.

No customers or patrons are allowed to enter a licensed massage therapist business premises after 11:00 p.m. and before 6:00 a.m. daily. Customers or patrons are also not

allowed to remain upon the licensed premises after 12:00 a.m. and before 6:00 a.m. daily.

### No tacks on sidewalks

In the city of Minnetonka in Hennepin County, it is considered a public nuisance to place or throw on any street, sidewalk or other public property, any glass, tacks, nails, bottles or other substances that may injure a person or animal or damage any pneumatic tire.

### Don't drive a vehicle with dirty tires

The city of Minnetonka has a long list of what it considers public nuisances. One of the rules in the list states that "A truck or other vehicle whose wheels or tires deposit mud, dirt, sticky substances, litter or other material on any street or highway will be declared a public nuisance affecting public peace, safety and general welfare."

### People living in even-numbered addresses may not water their plants on odd-numbered days

Residents living in even-numbered addresses shall be allowed to water their lawns/gardens only on even-numbered days and on odd-numbered days for properties with odd-numbered addresses. However, any property may be watered on the thirty-first day of any month.

### Don't park airplanes in city parks

No one is allowed to start or land an airplane, hot air balloon, parachutes or hang gliders in any park within the city of Cottage Grove unless you obtain a permit from the city authorities.

### "Sorry, Ociffer"

As of 2010, a statute states that no person may be charged with or convicted of the offense of drunkenness or public drunkenness. The trick is to avoid all other chargeable offenses once publicly intoxicated.
